

# CONCRETE RIDGE

**Our concrete ridge are designed to suit most roofing applications.**

---

We have a comprehensive range to complement tiled or slated roofs. From the economical to the more robust hand made product we can offer a solution for almost any job. We particularly pride ourselves in the hand made ridge supplying a very durable single piece cast product with a wide variety of pitch and profile choices. We are also able to match most standard tile colours and can reproduce many different finishes if required, as with all our range of roofing products quality is second to none.
